

Welcome to LemanChem

LemanChem was founded in 1996 in Prangins, close to Nyon on the shores of Lake Geneva (lac Léman), in the Canton of Vaud, Switzerland – whence the name of the company.

It was created on the basis of the inspiration of its founders, who share several decades of experience in the industry.

☒ Our area of specialization is focused on people and covers the food-, cosmetics-, pharmaceutical industries and the research.

Our job is to search for state-of-the-art raw materials and the know-how for their application and to pass on to our clients and partners the wealth of developments achieved by the world's leading producers.

Our goal is to provide our clients with high quality, innovative products.

Come in and have a look at our portfolio, where you will find a store of information in every field.
